

Additional Prompts – Comp C

These tasks emerged out of the fraction research. Teachers may wish to use them as diagnostic or summative assessments, exit cards, number talk prompts, or additional practice questions. By considering both the specifics of the cell and student use of purposeful models, teachers can support students in acquiring a strong conceptual understanding.

Identify three fractions between $1\frac{1}{3}$ and 2.

Identify two fractions between $\frac{3}{8}$ and $\frac{6}{8}$.

Identify a fraction between $\frac{2}{5}$ and $\frac{2}{3}$.

Select two fractions and identify a fraction between them. Prove that your answer is correct.
